## PROFESSIONAL SUMMARY

Informatics graduate from Telkom University Surabaya with internship experience in telecommunications data analytics and practical experience in machine learning, computer vision, and web development. Skilled in Python, SQL, Pandas, Tableau, and Flask, with experience processing over 10.8 million telecommunications records. Developed analytical dashboards and AI-based applications. Interested in Data Analytics, Artificial Intelligence, and IT-related roles.

## EDUCATION

**Telkom University Surabaya, Indonesia** *2022 – 2026*

Bachelor's Degree in Informatics

- GPA: 3.45 / 4.00.
- Final Project: Football Foul Detection Using YOLO11n with the Roboflow Dataset.
- Relevant Coursework: Artificial Intelligence, Machine Learning, Big Data, Database Systems, and Software Development.

## TECHNICAL SKILLS

- **Programming:** Python, SQL, PHP, JavaScript, HTML, CSS.
- **Data Analytics & Visualization:** Data Cleaning, Data Aggregation, Exploratory Data Analysis, Microsoft Excel, Tableau, Power BI, Matplotlib, Chart.js.
- **Libraries & Frameworks:** Pandas, NumPy, Scikit-learn, PyCaret, Flask, FastAPI, React, Vite, Bootstrap.
- **AI & Computer Vision:** Machine Learning, YOLO11n, YOLOv8, OpenCV, Roboflow, Langflow, Google Gemini, Prompt Engineering.
- **Databases & Development Tools:** MySQL, SQLite, Git, GitHub, Jupyter Notebook, Google Colab.

## WORK EXPERIENCE

**Data Analytics Intern – PT Telkomsel Regional Surabaya** *Mar 2025 – Apr 2025*

*Network Performance Analysis and Consolidation, Jawa Bali Department*

- Processed over 10.8 million daily telecommunications records using Python and Pandas, transforming raw data into monthly site-level analytical datasets.
- Evaluated machine learning classification models using PyCaret and applied an Extra Trees Classifier to categorize payload potential into low, medium, and high classes.
- Developed interactive Tableau dashboards displaying network site distributions, monthly payload trends, and site-level performance metrics.
- Prepared analytical reports and visualizations to support network usage analysis and performance evaluation.

## SELECTED PROJECTS

**Telkomsel Site Potential Analysis** GitHub

*Python, Pandas, PyCaret, Tableau*

- Analyzed large-scale telecommunications data and developed interactive Tableau dashboards for network performance analysis.

**Hospital Service Analytics Dashboard** GitHub

*JavaScript, Tailwind CSS, Chart.js*

- Developed an interactive dashboard with KPIs, visualizations, and dynamic filters to analyze hospital services.

**FoulVision – Football Foul Review Application** GitHub

*Python, Flask, YOLO11n, OpenCV*

- Built an AI-powered football review application with foul-related object detection and video analysis features.

**Face Recognition Attendance System** GitHub

*Python, FastAPI, OpenCV, SQLite*

- Developed a face recognition attendance system with real-time monitoring, participant registration, and automated reports.

**Customer Feedback Sentiment Analysis** GitHub

*Langflow, Google Gemini, Prompt Engineering*

- Developed an AI workflow to analyze customer sentiment, summarize reviews, and generate actionable recommendations.

**Employee Attendance and Leave Management** GitHub

*Python, Flask, SQLite, WhatsApp Cloud API*

- Built an employee management system featuring approval workflows, QR-based attendance tracking, and notifications.

## SELECTED CERTIFICATIONS

- **Data Visualization & Dashboard Essentials** – IBM Developer Skills Network / Coursera (Oct 2026).
- **Excel Basics for Data Analysis** – IBM / Coursera (Oct 2026).
- **Introduction to Generative AI Learning Path** – Google Cloud / Coursera, 4-course Specialization (Oct 2026).
- **TOEFL Prediction – English Proficiency Test** – Global Operation Indonesia, Score: 573 / 677 (Sep 2026).

## ACTIVITIES & LEADERSHIP

**WordPress Introduction Seminar – Community Service** *Apr 2025*

*Team Member, Telkom University Surabaya*

- Participated in a community service program introducing WordPress, content management systems, and digital literacy to students at SMA Negeri 18 Surabaya.

**Entrepreneurship Market Day – Tahu Bakso Juara** *May 2025*

*Team Member – Sales, Promotion & Cash Flow*

- Conducted direct sales and product promotion, prepared weekly cash flow reports, and collaborated with team members to achieve sales targets.
